

I urge the FCC to reject the NAB's petition 04-160. I purchased a particular new car just to have the built-in XM Radio. The traffic reports have saved me hours of being stuck in gridlock. Just last Thursday night the weather reports kept me up to date with damaging and flooding storms headed into the metroplex. The information and entertainment I receive from my XM radios (Yes, I own a portable unit too.) is vital to my lifestyle. I believe that XM Radio should be a staple in everyone's home or car. I am a cheerleader for this information outlet.
